300-990 (30-99 Boxes)	\$20.97/box
1000 or more	Call for pricing

Woodworkers know that a shear cut is far better than a straight cut and that a staggered cut is much better than just a single straight knife. If you happen to plane a nail or staple, it is not necessary to replace expensive knives the full length of your planer head. Replace 2 or 3 inexpensive knives and you're ready to go. You might expect to pay a small fortune for a journal head with these features, but with Byrd Tool Corp, we can manufacture a journal head to your specifications for typically a fraction of the cost you might expect.

Benefits to Ture Helical Cuts:

- Thicker Knives than most 2.5mm
- More overlap row to row
- Chip clearance between knives
- Radius ground on knives
- Extremely quiet cuts
- Greatly reduces tearout
- Replace only damaged or dull knives

Jointers (Carbide Tips Included)
